Publishes GA docs to docs.pulpproject.org/

This patch improves the .travis/docs-builder.py script. The script will always publish GA docs to the root of docs.pulpproject.org. The same docs are also published into the docs.pulpproject.org/en/3.y/ directory. The same docs are also published to docs.pulpproject.org/en/3.y.z/ for long term storage.

Pre-release builds are always published into docs.pulpproject.org/en//.

Nightly docs are published to docs.pulpproject.org/<branch\_name>/nightly/.
