

## Pulp - Story #5949

As a user, I have an authentication backend that does not auto-create from RemoteUsers when using RemoteUserAuth

**Description**

when using cert auth as specified here:  
<https://docs.pulpproject.org/installation/authentication.html#webserver-auth-with-reverse-proxy>

users are automatically created when using any valid certificate. we would like to disable this auto-creation and only allow certs with 'admin' (or any already created users), but its not clear exactly how to do that.

### Associated revisions

Revision 6469b935 - 01/24/2020 06:32 PM - bmbouter

Remove Remote Auth by Default

This PR comes with a few changes:

- Significantly revamp the authenticaiton docs
- Adds a Pulp Backend that will not create users by default
- Removes the RemoteUserBackend disabling external auth by default

<https://pulp.plan.io/issues/5949> closes #5949
