

File Support - Issue #5966

Documented workflows need to be updated

Description

<https://pulp-file.readthedocs.io/en/latest/workflows/upload.html#create-file-content-from-an-artifact> still shows the outdated synchronous call to create content using an `_artifact` field (which has been renamed to `artifact`).

I haven't checked all the workflows, there may be other places in need of an update.

+1 and also content creation from artifact is asynchronous, and current docs don't reflect that.
