Description

Running tests on pulplift boxes lead to hanging tasks in certain environments (maybe due to fast discs, slow internet).

The problem seems to be introduced by upgrading redis-py from 3.1.0 to 3.3.1

More details can be found in this thread:

Re-pin redis version to fix freezing issue

re: #6038 <https://pulp.plan.io/issues/6038>

Revision 3e537401 - 01/31/2020 08:47 AM - gmbnomis

Unpin redis-py version as freezing issue has been fixed

The fix <https://github.com/andymccurdy/redis-py/pull/1270> is part of redis-py 3.4.0.

fixes #6038 <https://pulp.plan.io/issues/6038>
