

Pulp - Story #6068

Provide repository_href when viewing a repository_version

01/30/2020 03:52 AM - jsherril@redhat.com

Status:	MODIFIED	Start date:	
Priority:	Normal	Due date:

Sprint Candidate:	No		

Description

Currently when fetching a repository_version or listing them, the repository_href is not included in the api response. Because of that, its nearly impossible to actually figure out what repository a repository version is part of. I think it would be a useful thing to add.

There is no direct need for this by katello, but it seemed like a major usability issue IMO
