

Ansible Plugin - Story #6290

As a pulp-galaxy user, I have docs and a playbook to install pulp-galaxy using ansible-pulp

Description

The plugin code is available here: <https://github.com/cutwater/pulp-galaxy>

We should contribute back the the [README.md](#) with the docs. We should have a playbook and group_vars the user can use when they clone the repo. This would be in pulp-galaxy, and would probably be similar to example-use and example-level.
