

Pulp - Test #6430

Test "task groups"

04/01/2020 04:46 PM - dalley

Status: NEW Priority: Normal Assignee: Category: Sprint/Milestone: Version: Platform Release: Tags:	Sprint: Quarter:
Description <p>Task group functionality was added without tests, because it is difficult to test via the standard means. Task groups are a plugin-api-only feature so the only way to test this would be:</p> <ul style="list-style-type: none">manually set them up in the databasein the "using plugin" section of the functional tests, run tests against a plugin that uses task groupsbmbouter suggests: <p>One idea I had for the automated tests is that we should have some way for them to load additional viewsets and tasks in the RQ registry if there is a PULP_TEST env var set or something. Something that keeps them unloaded on production systems and the tests automatically skip if they aren't loaded. Just an idea I had.</p>
