<b>Description</b>			
Proposal: add a top-level file to the export.tar.gz, 'versions.json', that is a list of dictionaries of the form [ {"component": "<pluginname>", "version": "<pluginversion>"},...]			
This suggestion/requirement came from demo discussions with the katello team.			

#### Associated revisions

**Revision b07a7793 - 05/07/2020 07:05 PM - ggainey**

Add version.json to top level of export.tar.gz

Only exports versions of plugins whose repositories are being exported.

closes #6572

#### History

**#1 - 04/24/2020 06:09 PM - ggainey**

Among other things, this will give Import some data for helping it decide if it should even attempt an import.
