Description

pulpcore depends on coreapi: <https://github.com/pulp/pulpcore/blob/master/setup.py#L11>

however, it did not see a release since 2017: <https://pypi.org/project/coreapi> and the repository is set to read-only/archived: <https://github.com/core-api/python-client>

would it be possible to verify if the dependency can be dropped or replaced?
