#### Description

While working on [#6600](#) I realized using bump2version on a setup.py file could cause a change in requirements:  
[https://github.com/pulp/pulp\\_file/pull/390#discussion\\_r423272806](https://github.com/pulp/pulp_file/pull/390#discussion_r423272806)

Another benefit from moving it out, we can provide requirements with hashes:  
<https://github.com/flask-extensions/Flask-GoogleMaps/blob/master/requirements.txt>
