

## Migration Plugin - Issue #6853

When a repo is only specified among distributor\_repository\_ids, distribution is not created for it

05/28/2020 03:06 PM - ttereshc

<b>Status:</b>	CLOSED - CURRENTRELEASE	<b>Start date:</b>

### Description

#### Pulp 2 setup

repo rpm\_unsigned with content

repo empty with no content (it's important that it's empty, otherwise you'll hit a known bug which I can't find - will file it)

2 yum\_distributors, one for each.

#### Migration plan

```
{
  "plan": {
    "plugins": [
      {
        "type": "rpm",
        "repositories": [
          {
            "name": "rpm_unsigned",
            "repository_versions": [
              {
                "pulp2_repository_id": "rpm_unsigned",
                "pulp2_distributor_repository_ids": [
                  "rpm_unsigned",
                  "drpm"
                ]
              }
            ]
          }
        ]
      }
    ]
  }
}
```

#### Expectations

In Pulp 3, there will be one repo, one repo version, one publication and two distributors.

#### Actual results

One repo, one repo version, one publication and one distributor (for rpm\_unsigned distributor).

#### Associated revisions

Revision 65c6db4c - 05/28/2020 03:33 PM - ttereshc

Consider all repos present in the plan, not only the ones to migrate.

We need to go through all repos mentioned in the plan in case importers' or distributors' repos are not being migrated. Otherwise, such importers and distributors are ignored and not migrated.

closes #6853 <https://pulp.plan.io/issues/6853>

#### **Revision 65c6db4c - 05/28/2020 03:33 PM - ttereshc**

Consider all repos present in the plan, not only the ones to migrate.

We need to go through all repos mentioned in the plan in case importers' or distributors' repos are not being migrated. Otherwise, such importers and distributors are ignored and not migrated.

closes #6853 <https://pulp.plan.io/issues/6853>

#### **Revision 65c6db4c - 05/28/2020 03:33 PM - ttereshc**

Consider all repos present in the plan, not only the ones to migrate.

We need to go through all repos mentioned in the plan in case importers' or distributors' repos are not being migrated. Otherwise, such importers and distributors are ignored and not migrated.
