Sprint Candidate: No	

Description

Goal

Users storing content in pulp_python should derive benefit from security scanning of Python packages that are out there.

Existing Tools

The idea is to integrate a tool not make a new one. Here are some options I've read about from [this article](#).

Scanning Python Code Itself

- [Bandit](#)
- [pysa](#)

Scanning Python Dependencies

- [safety](#) <-- freemium model with limited updates when not paid for

History

#1 - 03/15/2021 10:10 PM - gerrod

- Status changed from NEW to CLOSED - DUPLICATE

Migrated to GitHub Issues: https://github.com/pulp/pulp_python/issues/349
