Description

Dear support team,

The paths in Release files created by Pulp (pulp-deb plugin) wre wrong. It contain full path (dists/)/... instead of "..." only.

Example from <http://ftp.debian.org/debian/dists/buster/Release> :

MD5Sum:

```
11bc5601662d8b6f5b24a92d28150fee 1363066 contrib/Contents-amd64
3059916a1fef8d912df26e4e537c87f0 103346 contrib/Contents-amd64.gz
ccfc6bac526797636a618f18cdce393c 1081641 contrib/Contents-arm64
e4e018e33daf3f4f24732834af309669 84796 contrib/Contents-arm64.gz
```

Example from repo coming from Pulp :

Codename: buster

Date: Sat, 09 May 2020 09:51:02 UTC

Architectures: s390x ppc64el mipsel mips64el mips i386 armhf armel arm64 amd64

MD5sum:

```

15681a4fb0e26463cd7eca6e4c8c4082 12128141 dists/buster/main/binary-ppc64el/Packages.gz
```

"dist/buster/" should not appear here as the path here must be relative from the place where the Release file is, to work prpoerly with the apt client.
