

Pulp - Story #7007

Story # 6793 (CLOSED - CURRENTRELEASE): [Epic] As a pulp_installer user, I can install Pulp from RPMs

As a user, I do not have to worry about Pulp being accidentally upgraded and broken by external dnf updates

Description			
We should pursue using dnf versionlock to accomplish this.			
This is needed because handlers/tasks "Run database migrations" will not be run if users run dnf update. Pulp would be broken until users re-run the installer.
