

## Pulp - Issue #7173

### pulp\_installer makes Pulp's files owned by group "users" rather than group "pulp"

07/20/2020 05:29 PM - mdepaulo@redhat.com

<b>Status:</b>	CLOSED - CURRENTRELEASE	<b>Start date:</b>

<b>Description</b>			
<p>Not long ago, we made 1 or more changes so that any existing pulp_user (ansible var, defaults to "pulp") would be added to the pulp_group (ansible var, typically "pulp").</p> <p>However, now the default behavior for new installs is that the "pulp" user has its primary group as "users", and it is merely in "pulp" as well.</p> <p>And thus folders like /var/lib/pulp/ have group "users" on them. Thus defeating the point of the "pulp" group.</p> <p>Fixing this involves 2 parts:</p> <ol style="list-style-type: none"><li>1. Modifying the "user" modules tasks (to set primary group to "pulp" in addition to adding to the group)</li><li>2. chgrp (or telling users to chgrp) pulp files.</li></ol>
