

Pulp - Issue #7246

Story # 6134 (CLOSED - CURRENTRELEASE): [EPIC] Pulp import/export

Failed pulp exports leave behind an export file

Description

When an export fails, it still leaves it's tarball on the filesystem. I think we should maybe clean up this file when there's a failure.

Steps to reproduce

1. Add a raise to a ModelResource or really anywhere late in the export code
2. Export and observe that the task failed and an export gets created on the filesystem

Associated revisions

Revision 986c3ca2 - 09/09/2020 09:34 PM - ggainey

Exceptions during export-process will result in incomplete export being removed as cleanup.

fixes #7246
