Sprint/Milestone:	0.3.0	Tags:	
Platform Release:		Sprint:	Sprint 81
Groomed:	No	Quarter:	
Sprint Candidate:	No		
Description			
Right now collection sync doesn't pull down enough metadata to be useful to the UI.			
We need to			
<ul style="list-style-type: none">• update the automation hub V3 api to provide all the information the ui needs via the collection version endpoint at v3/collections/<namespace>/<collection>/versions/<version_number>/. (issue 403).• update the pulp sync process to pull metadata from the details endpoints during syncs

Add endpoint to show docs_blob for a CollectionVersion

ref #7397

Signed-off-by: Andrew Crosby acrosby@redhat.com

History

#1 - 08/27/2020 08:55 PM - daviddavis

We need to expose this as well in our v3 api. So we can do that and then test the sync against a Pulp instance.

#2 - 08/27/2020 08:56 PM - daviddavis

- Sprint set to Sprint 80

#3 - 08/27/2020 08:56 PM - daviddavis

- Tracker changed from Issue to Story

- Subject changed from Collection sync doesn't load all metadata. to Expose and sync down docs_blob information for collections

- % Done set to 0

- Severity deleted (2. Medium)

- Triaged deleted (No)
