

Packaging - Issue #741

pulp::server::install puppet module does not install selinux or broker specific rpms

03/06/2015 10:27 PM - bcourt

Status:	CLOSED - WONTFIX	Start date:	
Priority:	Normal	Due date:	
Assignee:		Estimated time:	0:00 hour
Category:			
Sprint/Milestone:			
Severity:	3. High	Groomed:	No
Version - Packaging:		Sprint Candidate:	No
Platform Release:		Tags:	Pulp 2
Target Release - Packaging:		Sprint:	
OS:		Quarter:	
Triaged:	Yes		
Description			
The pulp::server::install module only installs the pulp-server yum group. This means that the server does not have everything that it needs to communicate with gofer or rabbitmq and that the selinux policy is not installed. The module should have an option to choose from rabbit or qpid and install the appropriate transport and selinux policy as well.			

History

#1 - 03/10/2015 04:29 PM - dkliban@redhat.com

- Severity set to High

- Triaged changed from No to Yes

#2 - 03/20/2015 08:16 PM - bmbouter

- Severity changed from High to 3. High

#3 - 04/08/2016 05:45 PM - bmbouter

- Status changed from NEW to CLOSED - WONTFIX

As I understand it this puppet module is not supported. Given that I'm closing this bug as WONTFIX.
