| <b>Status:</b>  | CLOSED - CURRENTRELEASE | <b>Start date:</b>     |           |
| <b>Priority:</b>  | Normal                  | <b>Due date:</b>       |           |
| <b>Assignee:</b>  | daviddavis              | <b>% Done:</b>         | 100%      |
| <b>Category:</b>  |                         | <b>Estimated time:</b> | 0:00 hour |
| <b>Sprint/Milestone:</b>  | 3.7.0                   | <b>Tags:</b>           |           |
| <b>Platform Release:</b>  |                         | <b>Sprint:</b>         | Sprint 80 |
| <b>Groomed:</b>   | No                      | <b>Quarter:</b>        |           |
| <b>Sprint Candidate:</b>  | No                      |                        |           |
| <b>Description</b>  |                         |                        |           |
| With pulpcore 3.7, backwards incompatible changes in the plugin API will need to be deprecated for 1-release before being removed.  |                         |                        |           |
| To do this effectively we need to have a new changelog type made.   |                         |                        |           |
| <b>To Do</b>  |                         |                        |           |
| Add a new changelog type which will be included in the plugin API portion of the changelog. The new changelog type should be .deprecated. So if issue 1234 introduces a breaking change the PR would include a CHANGES/plugin_api/1234.deprecated call out of the deprecated function/object. |                         |                        |           |

#### Associated revisions

##### Revision c6cef652 - 09/01/2020 10:56 PM - daviddavis

Added deprecations to the changelog.

fixes #7415

#### History

##### #1 - 08/28/2020 06:29 PM - bmbouter

- Parent task set to #7416

##### #2 - 08/29/2020 04:44 PM - daviddavis

I found a few other examples of other people using towncrier to document deprecations and they use 'deprecation' as the extension, which I'm prone to since it fits with bugfix and feature (noun vs past-tense verb). Happy to consider 'deprecated' instead though.

##### #3 - 08/29/2020 04:48 PM - daviddavis

Also, I'm thinking we shouldn't limit this to the plugin api? Not sure it's possible to scope to the plugin api and it'd be more work to do so.

I rolled it out to plugins too as I figured they might want to deprecate things ahead of a major release.

##### #4 - 08/29/2020 04:48 PM - pulpbot

- Status changed from NEW to POST

PR: <https://github.com/pulp/pulpcore/pull/876>

##### #5 - 08/29/2020 04:58 PM - daviddavis

- Assignee set to daviddavis

##### #6 - 09/01/2020 04:44 PM - daviddavis

- Sprint set to Sprint 80

**#7 - 09/01/2020 10:56 PM - daviddavis**

- Status changed from POST to MODIFIED

- % Done changed from 0 to 100

Applied in changeset [pulpcore|c6cef652e0a0ada1d43536c07fe28d2dfaec39aa](#).

**#8 - 09/15/2020 06:20 PM - bmbouter**

- Sprint/Milestone set to 3.7.0

**#9 - 09/22/2020 09:21 PM - pulpbot**

- Status changed from MODIFIED to CLOSED - CURRENTRELEASE
