### Description

In pulp\_container, there is a requirement to retrieve data from a request object which should be passed to one serializer field within the field context.

Current workflow does not allow us to get the data when the field is looked up from the task's serializer:

<https://github.com/pulp/pulpcore/blob/20c6b7617e9721792fea3802704f0b9d5716e993/pulpcore/app/serializers/task.py#L32>

### Associated revisions

#### Revision 4063c346 - 10/23/2020 07:33 PM - Lubos Mjachky

Pass an adjusted request object to the serializer

closes #7718
