

Pulp - Task #7997

While running functional tests in the CI we should check for deprecation messages.

Sprint Candidate:	No		

Description

We want to catch incompatible changes in pulpcore as early as possible. It should probably not let the CI fail. Maybe we can let the workflow maintain a comment on the pull request to raise awareness. A release PR should only be merged if there are no DeprecationWarnings left for the pulpcore versions specified as compatible.
