

## Migration Plugin - Issue #8417

### Errata in Pulp2 does not updated \_last\_updated if copied, it causes problems with re-migration

03/17/2021 06:18 PM - ttereshc

#### Description

To reproduce:

- create and sync rpm\_unsigned repo in pulp2
- migrate it
- create a repo copy1 and copy all content from rpm\_unsigned
- run a migration with the following plan
- in the new repo version errata will be removed because it is not found in Pulp2Content for a copy1 repo.

```
{
  "plan": {
    "plugins": [
      {
        "repositories": [
          {
            "name": "rpm_unsigned",
            "pulp2_importer_repository_id": "rpm_unsigned",
            "repository_versions": [
              {
                "pulp2_distributor_repository_ids": [
                  "rpm_unsigned"
                ],
                "pulp2_repository_id": "rpm_unsigned"
              },
              {
                "pulp2_distributor_repository_ids": [
                  "copy1"
                ],
                "pulp2_repository_id": "copy1"
              }
            ]
          }
        ],
        "type": "rpm"
      }
    ]
  }
}
```

Alternatively, if you run for the second migration the migrate-all plan, the new repository will lack errata as well.

We likely need to work around it in the migration plugin, since updating \_last\_updated date for a copy in pulp 2 will cause problems in pulp2 world - publish will be operational for all repositories which contains an erratum if that erratum has been copied (Katello uses copy heavily).

## Associated revisions

### Revision e21447b7 - 03/22/2021 03:37 PM - ttereshc

Fix errata re-migration when it's been copied to a new repo in Pulp2

closes #8417 <https://pulp.plan.io/issues/8417>

Required PR:<https://github.com/pulp/pulp-2to3-migration-test-fixtures/pull/5>

### Revision 07d9a3a1 - 03/22/2021 03:37 PM - ttereshc

Adjust pulp2\_last\_updated date for the copied errata.

Needed in order to allow user (e.g. Katello) to identify content changed since the last run. Pulp 2 copy operation doesn't update timestamps.
