

Pulp - Task #8480

Story # 8383 (CLOSED - CURRENTRELEASE): [EPIC] As a plugin writer I have the `repository`, `publication`, and `repository_version` fields on Distribution MasterModel

Rename `NewDistributionFilter` to `DistributionFilter`.

Sprint Candidate:	No		
Description			
<p>The name DistributionFilter is the name we want, but unfortunately that name is take as part of machinery which will be deprecated with 3.12 but not actually removed until 3.13 at the earlier as part of this ticket. Because the name was taken we had to introduce NewDistributionFilter as the name instead.</p> <p>This ticket is to do two things:</p> <ol style="list-style-type: none">1. Introduce the object named <code>pulpcore.plugin.viewset.NewDistributionFilter</code> as <code>pulpcore.plugin.viewset.DistributionFilter</code>.2. Deprecate the object named <code>pulpcore.plugin.viewset.NewDistributionFilter</code>. This will later be removed with Issue 8479.

Adds DistributionFilter

This add `pulpcore.plugin.viewsets.DistributionFilter` to replace `pulpcore.plugin.viewsets.NewDistributionFilter`. The `pulpcore.plugin.viewsets.NewDistributionFilter` is now deprecated and will emit warnings if used.

closes #8480
