Triaged:	No	Quarter:	
Description			
When syncing Alma 8 AppStream, BaseOS and Kickstart repositories on a foreman/katello the packages are downloaded but in the end following error is thrown:			
"AttributeError: 'Repository' object has no attribute 'repo_id'\n",			
Exception: Katello::Errors::PulpError: PLP0000: 'Repository' object has no attribute 'repo_id'			

History

#1 - 04/01/2021 03:51 PM - brimiouille

Affected repos are the following: https://repo.almalinux.org/almalinux/8/AppStream/x86_64/os/
https://repo.almalinux.org/almalinux/8/BaseOS/x86_64/os/https://repo.almalinux.org/almalinux/8/BaseOS/x86_64/kickstart/

#2 - 04/06/2021 04:45 PM - daviddavis

- Project changed from Pulp to RPM Support

#3 - 04/06/2021 04:48 PM - ttereshc

Thanks for the report.

Please share which versions of katello, pulp and pulp_rpm you are running. Could you also share logs? There should be a full traceback for the error you see. The logs are in /var/log/messages or you can use journalctl to check pulp logs.

- Status changed from NEW to CLOSED - WORKSFORME

Looks like Alma fixed their repos. I was able to sync all three of these repos without problems on 2.21.5:

- https://repo.almalinux.org/almalinux/8/AppStream/x86_64/os/
- https://repo.almalinux.org/almalinux/8/BaseOS/x86_64/os/
- https://repo.almalinux.org/almalinux/8/BaseOS/x86_64/kickstart/

Closing.
