

Debian Support - Task #8640

Signature tests should provide proper SigningService setup

04/28/2021 08:59 AM - quba42

Sprint Candidate: No	

Description

The setup of the SigningService for the test pipeline is currently a dirty hack, that causes frequent failures and complications in new pipelines.

It should be possible for the test itself to handle the setup using the pulpcore-manager utility functions provided by pulp-smash.

History

#1 - 04/28/2021 09:03 AM - quba42

- Tracker changed from Issue to Task
- % Done set to 0
- Severity deleted (2. Medium)
- Triaged deleted (No)

#2 - 08/03/2021 06:04 PM - quba42

Once this issue is done, set test_released_plugin_with_next_pulpcore_release to true in the template config.
