ing='This field may not be blank.', code='blank')], 'priority': [ErrorDetail(string='This field ma
y not be blank.', code='blank')]}
```

I used the DRF form to upload content (/pulp/api/v3/content/deb/packages/). I also tried adding content by linking an artifact instead but the error is the same.

History

#1 - 05/18/2021 06:42 PM - ciokan

```
pulp-deb==2.12.0
pulp-rpm==3.11.0
pulpcore==3.12.2
```

#2 - 05/19/2021 05:49 PM - quba42

It looks like the package you tried to upload does not have a Section nor a Priority field in its metadata, but pulp_deb considers these to be required fields.

Can you tell me what package it was you were trying to upload?

I will have a more detailed look at this problem some time next week.

#3 - 05/26/2021 04:42 PM - quba42

- Related to Test #7279: Add a test that uploads a "minimal" Debian package. added

#4 - 05/26/2021 04:42 PM - quba42

- Sprint/Milestone set to Katello

#5 - 06/02/2021 03:18 PM - quba42

Neither section nor priority is a required field in the pulp_deb package model or serializer. This error message does not make much sense to me...

#6 - 06/02/2021 03:47 PM - quba42

Looks like "blank" here refers to a Null value, so this may be related to empty string vs. Null value.

See: <https://www.django-rest-framework.org/api-guide/fields/#string-fields>
