

Pulp - Issue #8834

Pulp_installer refuses to install in non-devel mode with FIPS enabled

05/27/2021 08:28 PM - ironfroggy

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	mdepaulo@redhat.com	Estimated time:	0:00 hour
Category:	Installer - Moved to GitHub issues	Groomed:	No
Sprint/Milestone:	3.14.0	Sprint Candidate:	No
Severity:	2. Medium	Tags:	
Version:		Sprint:	Sprint 97
Platform Release:		Quarter:	
OS:			
Triaged:	No		
Description			
This is enforced in roles/pulp_common/tasks/main.yml			
<pre>- name: Check required roles if FIPS detected assert: that: - "'pulp_devel' in role_names" fail_msg: > Pulp cannot run in a FIPS environment because Django (a dependency) is not FIPS compatible when: ansible_facts.fips</pre>			
However, the user can know this and be using a patched Django. We need to be able to ignore or bypass this if we've handled the necessary requirements outside the installer.			
Currently blocking galaxy_ng 4.3 related release steps.

Associated revisions

Revision 4d65c8e4 - 05/27/2021 10:11 PM - Mike DePaulo

Problem: pulp_installer refuses to install in

packages mode and non-devel mode when FIPS is enabled

Solution: Check for either devel mode (with pip) or packages mode. (#8258 checked for devel mode only)

fixes: #8834 <https://pulp.plan.io/issues/8834>

History

#1 - 05/27/2021 08:34 PM - ironfroggy

Note: this is for pulp 3.11

#2 - 05/27/2021 10:08 PM - mdepaulo@redhat.com

- Related to Story #8258: As an installer user, I don't have special FIPS detection added

#3 - 05/27/2021 10:09 PM - mdepaulo@redhat.com

- Assignee set to mdepaulo@redhat.com

- Sprint set to Sprint 97

This is a bug in the implementation of [#8258](#).

It should also pass the check if installing from "packages".
