Description

Pulp3 presented a poster in Pycon with reusable icons[0] . ideally these icons should be added to the workflow docs:

Can a link to the diagram be added to make this task more actionable.

Also, it would be good to document how the document can be edited over time. Saving a copy of the original file that generated the diagram would be useful for this.

Also, it would be good to create an unbranded version for others (like future me) to use as a starting point for their own posters. A blog post mentioning this would be helpful as well to make it more findable.
