

Pulp - Story #9128

As a plugin-author, I can have an influence on the repository-repair process

Description

pulp_rpm has run into problems that require repairing broken rpm-specific data. It would be nice if there were some way that a plugin could register an interest when `/pulp/pulp/api/v3/repair/` is invoked, and do plugin-specific investigation/changes.

History

#1 - 07/23/2021 03:28 PM - ipanova@redhat.com

There is another feature that would benefit from this - reclaim disk space, here is some more information on the problem
