Description			
Currently pulpcore-manager does not work unless you specify PULP_SETTINGS='/etc/pulp/settings.py'			
Its kind of annoying that it doesn't default to the default production location of /etc/pulp/settings.py.			
David davis agreed with me that this is annoying :)			

History

#1 - 08/17/2021 10:02 PM - jsherril@redhat.com

- Subject changed from pulpcore-manager should default to using '/etc/pulp/settings.py' to pulpcore-manager should default to using '/etc/pulp/settings.py'

#2 - 08/24/2021 05:04 PM - fao89

- Triaged changed from No to Yes
