Description

When the installer runs with ansible-core 'devel', it fails with this error:

> ERROR! 'static' is not a valid attribute for a HandlerTaskInclude

> The error appears to be in '/collections/ansible_collections/pulp/pulp_installer/roles/pulp_common/handlers/main.yml': line 63, column 3, but may be elsewhere in the file depending on the exact syntax problem.

> The offending line appears to be:

by not using include_tasks

> - name: Restart all Pulp services ^ here

When ran with ansible-core 2.11, this warning appears:

> [DEPRECATION WARNING]: The use of 'static' has been deprecated. Use 'import_tasks' for static inclusion, or 'include_tasks' for dynamic inclusion. This feature will be removed from ansible-core in version 2.12

ansible version: ansible [core 2.12.0.dev0]

pulp-installer 3.14.3-1 was used, but 'devel' branch also has the 'static' set.
