Description

With Django 2.2, we had made this patch for Katello:

<https://github.com/theforeman/pulpcore-packaging/blob/rpm/3.9/packages/python-django/0001-FIPS-Mark-use-of-MD5-not-security-relevant.patch>

With Django 3.2 a new patch will need to be made. md5 looks like it's used in more places with Django 3.2.

History

#1 - 09/08/2021 06:19 PM - bmbouter

FYI this is the django patch but it's only for Python 3.9 <https://github.com/django/django/pull/14763>
