

Pulp - Issue #9371

Installer fails on x509 module

09/10/2021 12:58 PM - ppicka

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:		Estimated time:	0:00 hour
Category:	Installer - Moved to GitHub issues	Groomed:	No
Sprint/Milestone:	3.15.2-1	Sprint Candidate:	No
Severity:	2. Medium	Tags:	
Version:		Sprint:	
Platform Release:		Quarter:	
OS:			
Triaged:	No		

Description

```
TASK [pulp_webserver : include_tasks] *****
fatal:
[pulp3-source-fedora34]: FAILED! => {"reason": "couldn't resolve module/action 'community'. This o
ften indicates a misspelling, missing collection, or incorrect module path.\n\nThe error appears t
o be in '/home/ppicka/devel/pulp_installer/roles/pulp_webserver/tasks/generate_tls_certificates.yml
1': line 30, column 7, but may\nbe elsewhere in the file depending on the exact syntax problem.\n\n
The offending line appears to be:\n\n      - name: Generate CA certificate\n        ^ here\n"}

workaround worked for me is to substitute module name [0] with full path to module community.crypto.x509_certificate

[0] https://github.com/pulp/pulp\_installer/blob/master/roles/pulp\_webserver/tasks/generate\_tls\_certificates.yml#L69
